

The kids in the Sanctuary on 8th Street's afterschool program learned all about pet adoption, met some kittens, and received free books thanks to The Jim Moran Foundation!

Pawsitive Outreach *Humane Education on the Road!*

In 2021, JHS launched a humane education outreach program made possible by a generous grant from The Jim Moran Foundation. Our goal? To bring educational, engaging activities and animal interactions to children who aren't able to come to JHS to participate in one of our onsite youth programs.

Since kicking off our Pawsitive Outreach program in May, JHS educators have visited over 300 students in grades K-8 in afterschool and summer programs throughout Jacksonville. Our visits included lessons on topics in animal welfare, simple service projects benefiting the pets at JHS (for example, crafting handmade

cat toys), Pawsitive Reading, careers working with animals and hands-on time with kittens and dogs.

We are currently partnering with Sulzbacher Village, MaliVai Washington Youth Foundation, Sanctuary on 8th Street, and Salvation Army Towers of Hope, with plans to continue adding other organizations and schools to our regular rotation in 2022.

To learn more about JHS humane education programs, please visit jaxhumane.org/education. If you are part of or know of a group that would benefit from a Pawsitive Outreach visit, email us at education@jaxhumane.org.

From the Desk of Our CEO

Dear Friends,

None of us were quite sure what to expect in 2021 after the year we had in 2020. **At JHS, we remained focused on our mission and used that to guide our decisions. We could not have done it without your unwavering generosity and faith in us.** I am proud of the lifesaving support you made possible.

We faced unique challenges this year that resulted in suspending public appointments in our hospital. This decision allowed us to focus our limited staff resources on pets in our care while still providing care to family pets facing immediate crises. We were also able to do community outreach for pet parents without access to transportation.

Most importantly, 2021 was another no-kill year for the city of Jacksonville, with the community-wide save rate at 93% and a save rate for JHS at 94%!

How was any of this possible? It is thanks to YOU! Your generosity of time, talent, and gifts never cease to amaze us. Jacksonville continues to be a leader in compassion.

With a generous grant from Petco Love, we are continuing our Florida Leaders in Lifesaving initiative to end the needless death of shelter pets at a state level. In September of 2021, we hosted a summit of 55 organizations from across the state to make lifesaving, collaborative plans for 2022. We are also hosting at least one Florida shelter each month at JHS for "Lifesaving University," a hands-on learning program created by our team.

We are grateful and inspired by your commitment to pets and the people who love them. We are excited to begin 2022 with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Denise Deisler".

PAWS & STRIPES

35 veterans

A JHS Paws & Stripes volunteer spends time with a new friend.

Paws & Stripes

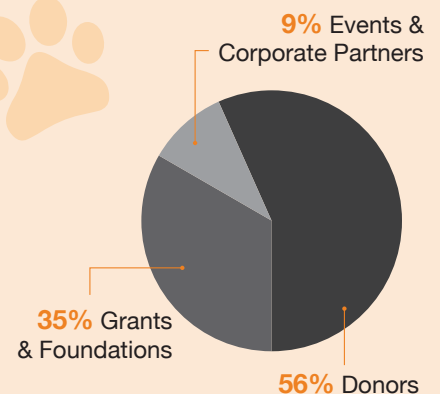

The JHS Paws & Stripes program is a unique volunteer opportunity for military veterans and active-duty service members to improve the lives of pets in need while also benefiting from the therapeutic impact of the human-animal bond. Paws & Stripes participants primarily focus on providing enrichment to the dogs at JHS through daily walks and behavior training but may also work with cats or in other areas of the shelter depending on their interests.

In 2022 we will be expanding on Paws & Stripes with the introduction of Paws & Stripes Academy, a job skills training program designed to provide military veterans with real-world knowledge and experience that can be applied to a number of jobs in the animal care and enrichment field.

Sourdough's New Start

Sourdough was a ball of matted fur when he arrived at JHS. The small, three-year-old dog looked as if he had not been groomed in more than a year. He also had a habit of spinning in circles due to increased levels of anxiety. Thankfully, once he came into our care, your donations made it possible for our medical team to jump into action. He received a fresh haircut, medicated bath, and got started on a medicinal treatment to improve his skin and coat. He also received vaccines, a microchip, and was neutered. Sourdough's new mom is a veterinary technician – lucky boy!

If you have a special interest in supporting animals like Sourdough, be sure to save the date for Toast to the Animals, our premier fundraising event for the JHS Medical Fund, coming September 28, 2022, to TIAA Bank Field.

Sourdough and his new mom on adoption day.
