

HELP! I'VE LOST MY PET

01

Check With Local Shelters

Animal Care and Protective Services is the city of Jacksonville's shelter. They retrieve stray animals from the streets and take in strays from the public at the shelter. Visit their shelter at 2020 Forest St in the Riverside. Give a call at 904-630-2489 or visit their website at coj.net/pets

02

Does Your Pet Have A Microchip?

If your pet is microchipped, call the chip company and report him or her missing. They will verify that they have your correct contact information. If you're not sure who the company is, you can look it up here: petmicrochiplookup.org

03

Use Social Media

Everyone is on Facebook these days- use that to your advantage! Post a picture of your pet with the area he or she was lost in and your contact information. Ask people to share it.

04

Try The Old Fashion Way!

Post flyers in the area where your pet was lost, as well as neighboring veterinarian offices and pet stores. The bigger and brighter, the better! Use our free flyer generator if you need help. jaxhumane.org/lost

05

Add Your Pet To Petco LoveLost

Petcolovelost.org uses facial recognition to help you find your pet. Click on "Lost", upload a photo, add where your pet was lost, and click search. Animals that look like your pet will show up!
